

TRANSCRIPT PREPARED BY THE CLERK OF THE LEGISLATURE
Transcriber's Office

April 29, 1999 LB 530

SENATOR WEHRBEIN: Yes, and then what happens if we advance this bill.

SENATOR CHAMBERS: Okay, let's say that...

SENATOR WEHRBEIN: And I know you're not clairvoyant. I don't know whether, you know, I'd like to ask Senator Brashear respond to that, if he would, too.

SENATOR CHAMBERS: Okay.

SENATOR WEHRBEIN: Both, I figure I'd get two views.

SENATOR CHAMBERS: And I...I will be very brief. If Nebraska loses every thing, and the other side is given what they wanted in terms of a third party or a master to review this and the master decides that the site that was selected is the one that ought to be used, then the court could order that the facility be put there. And whether Nebraska is in or out of the compact will have no bearing on that. If bad faith was found, then that's where the damages or the amount that Nebraska can be assessed in terms of having to absorb the costs that they put these other generators and so forth through. If the bill is passed and Nebraska actually withdraws from the compact, a number of years pass, which will be five, so that they are actually withdrawn, then if you have a site in Nebraska, by not being a part of the compact, Nebraska could not put its waste in that facility which is located in Nebraska because it would be available only to those who are members of the compact. And Senator Brashear, may have other things to add.

SENATOR WEHRBEIN: All right,...

SENATOR CHAMBERS: But that's the way I (interruption).

SENATOR WEHRBEIN: ...thank you, and I would ask Senator Brashear to whether, for the rest of time, if he...he may use the rest of his time to give a scenario in his mind.

SENATOR CUDABACK: Senator Brashear, you have about two and a half minutes.
